PUBLICATIONS AVAILABLE TO
BLISTER RUST EMPLOYEES
October 26, 1923.

107

(Blister Rust Agents will kindly check off the publications they do not have in their library, sign and return to the Office of Blister Rust Control at Washington, D. C.

WHITE PINE BLISTER RUST

1. Report on White Pine Blister Rust Control 1918. Bul. 2 of American Plant Pest Committee.
2. Report on White Pine Blister Rust Control 1919. Vol. 4 of American Plant Pest Committee.
3. Status of White Pine Blister Rust Control in 1920-21. by S. B. Detwiler. Mimeographed.
4. Status of Blister Rust Control in 1921-22. by S. B. Detwiler, Mimeographed.
5. Treatment of Ornamental White Pine Infected with Blister Rust, by J. F. Martin, G. F. Gravatt and G. B. Posey. Circ. 177, U. S. Dept. Agric., August, 1921.
6. White Pine Blister Rust in the Western United States. Circ. 226, U. S. Dept. of Agric., June, 1922.
7. How to Save Your White Pine Crop - Colored leaflet.
8. Investigation of the White Pine Blister Rust, by Perley Spaulding. Bul. 957, U. S. Dept. of Agric., Feb. 6, 1922.

WHITE PINE

1. White Pine Under Forest Management by E. H. Frothingham, Bul. 13, U. S. Dept. of Agriculture, Feb. 24, 1914.
2. The management of Second Growth White Pine in Central New England, by R. T. Fisher and E. I. Terry. Journal of Forestry, Vol. 18, No. 4, April, 1920. Mimeographed.
3. Notes on Release of White Pine in Harvard Forest, Petersham, Mass. by J. Nelson Spaeth, Journal of Forestry, Vol. 20, No. 2. Feb., 1922. Mimeographed.
4. The Sustained Yield in Certain Forest Localities in Massachusetts. by H. O. Cook. Mimeographed.
5. White Pine Insects.
Extract from article of H. B. Peirson. Mimeographed.

1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science.

2. The second part of the paper is devoted to a detailed discussion of the various theories of the origin of life. It is shown that the most plausible theory is the theory of spontaneous generation.

3. The third part of the paper is devoted to a discussion of the various experiments which have been conducted in order to test the various theories of the origin of life. It is shown that the results of these experiments are in general in favor of the theory of spontaneous generation.

4. The fourth part of the paper is devoted to a discussion of the various objections which have been raised against the theory of spontaneous generation. It is shown that these objections are in general unfounded.

5. The fifth part of the paper is devoted to a discussion of the various conclusions which can be drawn from the foregoing.

6. The sixth part of the paper is devoted to a discussion of the various applications of the theory of spontaneous generation to the study of the origin of life.

7. The seventh part of the paper is devoted to a discussion of the various conclusions which can be drawn from the foregoing.

White Pine cont'd.

6. The White Pine Blight.
Letter from Dr. Haven Metcalf, of March 9, 1922. Amended March 1, 1923. Mimeographed.
7. Cows and White Pine - A Paying Combination, Says New Hampshire.
By P. S. Lovejoy. The Country Gentleman, March 11, 1922.

EXTENSION WORK AND METHODS

1. Extension Work in Farm Forestry in New York State by G. H. Collingwood. Journal of Forestry, Vol. 21, No. 3, March, 1923.
2. A Method of Building and Advancing Community Extension Programs by H. W. Gilbertson and Grace E. Frysinger, Jan. 5, 1923.
